

Exposure Visit to Organic Rice-Mill Cooperative of Farmers and CEDAC in Tramkak district

Takeo province: On January 06, 2014, the committee members of Organic Rice-Mill Cooperative of Farmers and CEDAC of Prey Kabas district, Takeo province, led by Mr. Seu Rany, Chairperson of the Farmer and Nature Net of Prey Kabas district, paid an exposure visit to Organic Rice-Mill Cooperative of Farmers and CEDAC of Tramkak district, Takeo province, which was recently installed. In the visit there were 08 committee members with financial support from Farmer and Nature Net of Prey Kabas district. Key aims of the visit were to learn about the installment processes; milling test for measuring the quality of milled-rice, husks, broken rice; percentage results of milling; and calculation of operational expenses such as fuel, labors, and capability of milling per hour. The visit further seeks to understand the costs of the mill and cost of the installment etc. The visitors have fruitfully gained good experiences and lesson's learned from the visit that could be a good model for replicating in their organic rice-mill cooperative as well and for disseminating and encouraging their shareholders to fully enhance the organic paddy rice in 2014. *It is important to note that the organic rice-mill cooperative of Farmers and CEDAC is a joint-program of rural development between the Farmer and Nature Net and CEDAC.*
